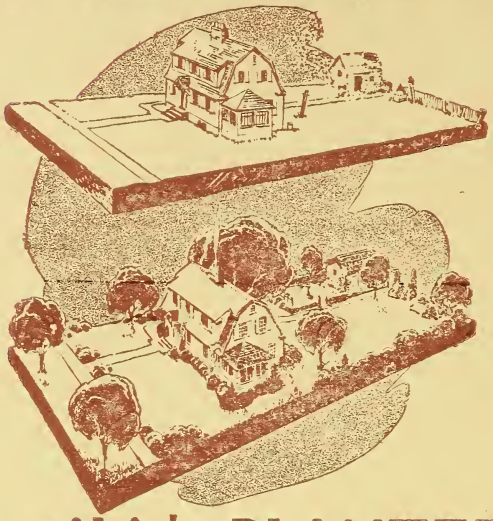
"It's not a Home-



until it's PLANTED

THE soft, rich beauty of growing Trees, Shrubs, Plants, Vines and Flowers are necessary, before a "house" is really a home. And the grounds that are poorly or only half planted, only emphasizes the ugly bareness.

Plan Now to Plant this Spring !

MAKE your grounds a Beauty Spot this summer. You can do it if you will plan now and be ready to plant this spring. Let us help you. We'll tell you which varieties will give you the effect you want and how to plant and care for them.

HYBRID TEA ROSES—ONE OF OUR SPECIALTIES

DIRECTIONS FOR PLANTING ROSES !

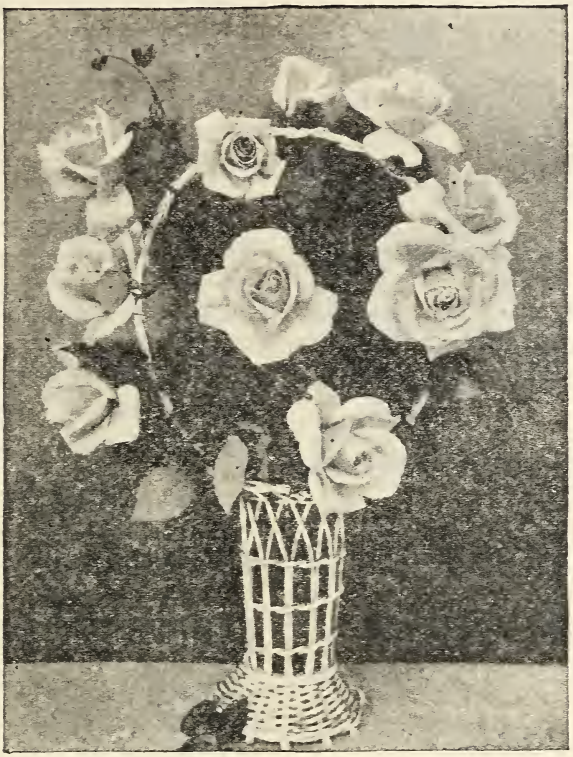
When you receive your Rose Plants they should be planted at once, if possible. If not, the packet should be moistened without uncovering the roots and kept in a cool place, or unpacked and laid in a trench, covering up practically all of the branches as well as the roots and kept wet until they are planted.

To prepare the bed : —It should be dug at least 18 inches deep and filled with good soil and rotted manure mixed well together and well packed down.

My Roses will be trimmed and ready for planting when delivered. They should be planted about two feet apart.

The plants which I furnish are all budded and it is very essential that they are planted so the bud is at least two inches below the surface of the ground, after it has been leveled off. Have the hole large enough so as not to crowd the roots and pack the soil firmly down, as it is filled in. Do not allow any manure to get against the roots of the plant. Put a mulch of manure on top, after planting and allow it to stay on until the plants have started to grow good ; then it can be forked into the ground. **Keep Well Watered !**

ROSES



HYBRID TEA—EVERBLOOMING ROSES.

The Hybrid Tea Roses have now taken the foremost rank in the Rose Culture of this country. They are very profuse bloomers. The plants are continually in bloom, from early June until severe frosts come in the fall. They are quite hardy and will stand our coldest winters with a little protection.

Place your order early, so as to be sure to get the varieties you want.

Price : $1.00 each; $10.00 per dozen, except where noted.

TWO YEAR, NO. 1 ROSES

This grade of Roses is the strongest and best that can be had at any price. They are selected for their sturdiness as well as for their size. The plants offered here are two year old, budded, field-grown stock and as they are grown within 50 miles of Syracuse (at Newark, N. Y.) they are especially suitable for this locality. The budded plants have been proven—with a few exceptions—to be the hardiest and the best bloomers and if planted to the proper depth, will seldom produce wild shoots.

SELECTED HYBRID TEA ROSES

Cecile Brunner. (Sweetheart Rose.) Dainty, double, soft rosy-pink flowers of perfect form, produced in many flowered graceful sprays. 75c each.

Chas. K. Douglas. Flaming scarlet.

Columbia. Soft rose-pink and delightfully fragrant.

Constance. Orange-yellow buds opening to full golden-yellow flowers.

Crimson Queen. Rich velvety crimson; strong upright grower with large flowers, always in bloom.

Crusader. Large double crimson flowers, growth heavy with long stems.

Double White Killarney, (Sport of Killarney.) Pure white flowers.

Duchess of Wellington. Intense saffron-yellow stained with rich crimson which as the flower develops becomes deep copper saffron yellow.

Edward Mawley. Deep velvety crimson.

Eldorado. Yellow, shaded copper.

Francis Scott Key. Deep, even red; large; very double.

Frau Karl Druschki. This is the ideal hardy white rose, pure in color, perfect in form; strong grower and remarkably free-flowering.

General McArthur. Bright, scarlet red.

George Arends. The best "Pink Druschki."

Golden Ophelia. Bright golden-yellow, slightly lighter on center petals; blooms compact.

Gruss an Teplitz. Scarlet, constant bloomer.

Hadley. Velvety-crimson.

H. V. Machin. Black-grained scarlet-crimson. Mild tea odor. Vigorous.

Independence Day. Flaming yellow buds, shaded copper and brown, opening to light orange-pink.

Jonkheer J. L. Mock. Deep pink; outside petals silvery rose.

Kaiserin Augusta Victoria. Pale yellow.

Killarney Brilliant. Deep, rosy carmine.

Killarney Queen. Cerise-pink; vigorous grower.

Lady Ashton. Silvery-pink, free bloomer, fine for cutting.

Lady Hillingdon. Deep apricot-yellow, beautiful and vigorous.

Lady Ursula. Flesh pink. A variety that grows well and flowers freely.

Los Angeles. The growth is very vigorous and produces a continuous succession of long-stemmed flowers of a luminous flame-pink, toned with coral and shaded with translucent gold at the base of petals. The buds are long and pointed.

Louise Catherine Breslau. Long, pointed bud. Coral-red changing to reddish coppery-orange in full bloom.

Miss Lolita Armour. Large double flowers. Deep coral-red; base of petals rich golden yellow. Fragrant.

Mme. Butterfly. Light pink, apricot and gold.

Mme. Caroline Testout. Bright silvery-rose, very large, profuse bloomer.

Mme. Edouard Herriot (Daily Mail Rose). Carol-red shaded yellow.

Mme. Ravary. Orange-yellow.

Molly Sharman-Crawford. Large perfectly formed, white buds with delicate greenish tinge, becoming pure white upon opening; delightfully fragrant.

Mrs. Aaron Ward. Yellow, sometimes shaded salmon-rose.

Mrs. Ambrose Ricardo. Deep honey-yellow.

Mrs. F. R. Pierson. Large, beautiful cardinal-red blooms, long graceful buds.

My Maryland. Bright salmon-pink flowers, edges of petals shading paler.

Ophelia. Well formed salmon-flesh flowers. Long, stout stems with large, dark green foliage.

Pharisafr. Rosy white, shaded with salmon; large and full.

Radiance. Carmine-pink, yellow at base of petals.

Red Radiance. Dazzling crimson-scarlet.

Richmond. Large, full, fragrant, bright scarlet flowers with attractive long-pointed buds.

Rose Marie. Clear rose-pink.

Sensation. Very good large crimson-scarlet. center.

Souvenir de George Beckwith. Very large salmon-pink and yellow blooms of the exquisite form of the Old Lyon Rose. A vigorous healthy grower.

Souvenir de Georges Pernet. A strong, vigorous grower and produces large flowers which are beautiful in both bud and flowers. In color it is of an intense oriental red, shading to cochineal carmine at the margin of the petals, the whole being suffused with a golden sheen.

White Cochet. Snow white, with outside petals tipped with pink.

Wm. F. Dreer. Yellow shaded peach and old rose.

Willowmere. This splendid rose is of a coral-red color, suffused with carmine in the bud state, and opens to a large, full, handsome flower of rich shrimp-pink, shaded yellow in the center and flushed carmine pink towards the edges of the petals.

NEW SELECTED HYBRID TEA ROSES.

Angele Pernet. Entirely distinct and novel in color, described by the raiser as a vivid orange-yellow, shaded fiery deep reddish-apricot, but tango color we think describes it better. It is a beautiful, sweet-scented flower that at once attracts attention. Awarded Gold Medal at the Bagattelle Gardens in 1924. $1.50.

Briarcliff. New. Bright silvery rose, slight golden base, pointed bud. $1 25.

Dame Edith Helen. Wonderful new pink variety. Has a strong, vigorous constitution and flowers of immense size, with petals which curl back prettily forming a wonderful long pointed bud which develops into a full double flower which is absolutely perfect in every stage of development. The color is a brilliant, yet soft Rose du Barri pink and is delightfully and strongly sweet-scented. $1.50.

Earl Haig. Full crimson-red blooms. Fragrant. $1.50.

Edel. An enormous bold, stately, well-built flower of great depth, quality and finish. Color, white with the faintest ivory shading towards the base. $1.00.

Etoile de Hollande. It is considered the best red garden Rose wherever roses are grown. Flowers are of a brilliant crimson-red color. $1.50.

Frank Reader. The long buds in first developing are a light lemon-yellow, while the flowers in their half-expanded form reveals a heart of golden apricot; it has a delicious rose apple scent. $1.50.

Imperial Potentate. Large, crisp, glistening rose-pink, sweetly scented. $1.25.

Lady Margaret Stewart. New. Immense buds of golden-orange and copper, opening to large, luscious flowers of golden yellow. Hard, glossy foliage. $2.00.

Lord Charlemont. This is the most gorgeous and brilliant dark red Rose we have with flowers of the most intense clear crimson-scarlet, deepening to carmine-crimson with almost black shadings with perfectly shaped long pointed buds and large, full, double, sweetly scented flowers. Free growing and free flowering, a splendid Rose of exceptional richness and beauty. $1.50.

Mabel Morse. Good-sized flowers of rich clear, bright golden-yellow. Rich glossy foliage. $1.00.

Margaret M'Gredy. New. Gorgeous orange-scarlet or intense brick-red. Very large of globular, cupped flowers with more petals than Padre, or any other rose of similar color. Very vigorous growth. A most promising new variety. $2.00.

Mme. Alexander Dreux. Lively shade of orange-yellow. $1.50.

Mrs. A. R. Barraclough. A new variety of carmine-pink with an even shade passing to yellow at the base of the petals. The color does not fade as the flower ages, but appears to become brighter. The bud is long and perfect and develops into a full double flower of great size, most perfect form and substantial substance; very fragrant. $2.00.

Mrs. Beckwith. Very beautiful light yellow bud, creamy yellow bloom. Similar to Sov. de Claudius Pernet. $1.25.

Mrs. Henry Morse. Flowers are of two contrasting tones of pink with an underlying yellow glow; double; very fragrant. $1.00.

Mrs. Lovell Swisher. Long-pointed, beautiful shaped buds, of a deep, coppery-salmon opening, to perfect formed, double, delightfully fragrant flowers of a delicate salmon-pink passing to flesh pink at the edges. A very strong, vigorous grower and exceptionally free flowering. $1.50.

Padre. Long petals of a coppery scarlet flushed with yellow at the base. Good for bedding. $1.00

Rapture. A sport of Mme. Butterfly with deeper tinted flowers and of more vigorous habit of growth. Free flowering and richly perfumed. Vivid colorings of bright, apricot, coral, rose and gold. $1.50.

Rev. F. Page Roberts. The long pointed buds are of a coppery-red stained red on the outside and open to good full double fragrant flowers of a golden-yellow particularly high colored in late summer and fall. $1.50.

Shot Silk. Color orange-rose overshot with golden-yellow and flushed soft rose; bud of beautiful shape, the open flowers cupped with reflexing outer petals; beautiful foliage. $1.00.

Souvenir de Claudis Pernet. Long-pointed buds. Pure sunflower yellow. Deeper center. $1.00

Victor Waddilove. Color imperial pink flushed crimson and orange, the coloring is intensified by the golden base of the petals which give the flowers a golden suffusion which is difficult to convey. $1.25.

Ville de Paris. It is of a rich buttercup-yellow much in the style of Mrs. Beckwith but with longer buds and larger flowers and purer in color. Free flowering. $1.50.

Wilhelm Kordes. Long pointed buds opening to full double flowers, a rich capucine red overlaying a golden ground, wonderfully prolific. $1.50.

HYBRID PERPETUAL, OR JUNE ROSES.

Clio. Flesh color.

General Jacqueminot. Bright crimson; very free flowering.

Harrison's Yellow. Clear yellow.

Mrs. John Laing. Pink.

Paul Neyron. Pink.

Prince Camille de Rohan. Deep maroon, of velvet-like texture.

$1.00 each; $10.00 per dozen.

Rosa Hugonis. This species from China, is unlike any other Rose. It is of shrub-like habit of growth and naturally forms symmetrical bushes about 6 feet high and the same in diameter, with single yellow flowers produced on long arching sprays. Invaluable when planted with other shrubs or as a single specimen in the yard.

RUGOSA ROSES

F. G. Grootendorst. A new Rose of great merit; a cross between Rugosa and Baby Rambler. Blooms are small crimson trusses of the Baby Rambler variety. $1.00 each.

Rugosa Alba. Single pure white. 75c each.

Rugosa Rubra. Single rose carmine. 75c each.

RAMBLERS AND CLIMBERS—75c and $1.00 each

American Pillar. Pink, white eye.

Climbing American Beauty. Rich red, fragrant.

Dorothy Perkins. Pink.

Dr. Van Fleet. A delicate shade of flesh pink, deepening to rose; buds pointed, flowers full and double.

Excelsa (Red Dorothy Perkins).

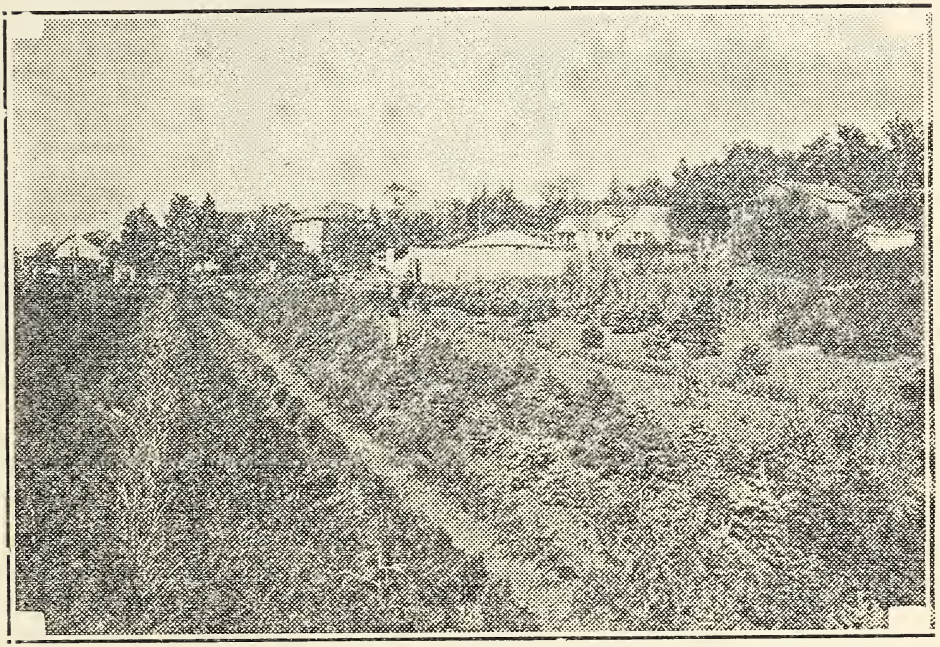
Hiawatha. Brilliant carmine, with clear white eye. Single.

Paul's Scarlet Climber. Vivid scarlet. New.

Silver Moon. Silvery-white, with yellow stamens; growth vigorous and very free blooming

Tausendschon. Pink-rosy-carmine.

White Dorothy Perkins.



EVERGREENS GROWING IN OUR NURSERY

EVERGREEN TREES

Evergreens have become very popular for decorating purposes, as they give a very satisfactory appearance, not only in the summer, but in the winter ; they go far in making the home more attractive the year around.

There are a great many varieties that are being offered for sale that are not suitable here under our local conditions, and are sure to be unsatisfactory. It is very essential you select only varieties that are hardy and suitable in this locality.

The varieties we offer have proved to be very satisfactory here and they are selected from over fifty varieties which we have tried out. We have a fine lot in all sizes here in our nurseries to choose from.

The most important feature in transplanting evergreens is that the roots must not be allowed to dry out, or become exposed to the air. Our trees are all dug with a ball of soil and delivered the same day and if planted at once and kept well watered will be very sure to grow.

ARBORVITAE (Thuja)

American Arborvitae. Very hardy and very useful in landscape plantings. Fine for hedges and windbreaks. $1 per foot.

American Pyramidal Arborvitae. A small, columnar tree, very pyramidal. Its foliage is dense and dark green. It is vigorous, very hardy native tree, practically unexcelled for sentinel setting. $1.50 per foot.

Siberian Arborvitae. Broadly pyramidal, dense type with shiny, blue-green foliage' very desirable. $2.50 per foot.

FIRS (Abies)

Concolor Fir. Bluish-green leaves and handsome pyramidal growth. Makes a magnificent lawn specimen. $3 per foot.

Douglas Fir. A very large and beautiful evergreen. It is entirely hardy and has dark green foliage, with a graceful pyramidal habit. Should never be crowded, but otherwise needs no favors. $2 per foot.

HEMLOCK (Tsuga)

Canada Hemlock. One of the handsomest native evergreens, presenting a soft, quiet effect. It is very useful in that it is entirely hardy and will stand considerable shearing at any age. 3 to 4 feet, $2 per foot.

RETINOSPORA (Chamaecyparis)

Golden Sawara Cypress. The foliage of this resembles the Arbor Vitae very much and the tree develops decidedly erect with very graceful branches. When sheared, the foliage develops its true color especially well. It is very lacy in appearance and is fine for foundation planting where a heavy plant is wanted or it makes a very attractive lawn specimen. $1 per foot.

Retinospora, Thread-leaf. This is a low evergreen with thread-like branches, forming an irregular outline, of picturesque effect. The foliage is bright green, looking "new" the year around. 50 cts. per foot.

SPRUCE (Picea)

Colorado Blue Spruce. The glory of the Blue Spruce is its foliage, which is an intense steel-blue. It has created a sensation throughout the United States and Europe, and is indeed a triumph in evergreen-growing. The rich blue color, a pronounced characteristic of all of these specimens enhances the value of the Colorado Blue Spruce, for single trees or for group planting.

Blue, $5 per foot. Silver, $4 per foot. Green, $3 per foot.

EVERGREEN GROUP

Norway Spruce. A tree of rapid growth, with spreading branches and dark green foliage. One of the best hedge and windbreak trees, holding its lower branches well down against the ground. 2 to 3 feet $1 per foot.

JUNIPER (Juniperus)

Pfitzer Juniper. A very excellent spreading variety, forming a rather irregular, broad pyramid. Entirely hardy. Used in mass effects and a cover for rough places in landscape work. $3 to $6 each.

Savin Juniper. A low, dwarf-like species with semi-upright branches bearing dense foliage, and entirely hardy, making a very good rockery shrub. $3 per foot.

Swedish Juniper. An old favorite of extremely columnar form, having grayish-green, prickly needles. A most compact

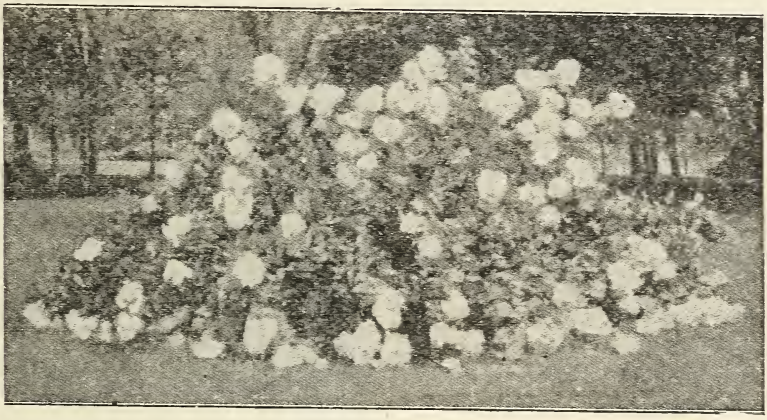
grower, reaching, eventually, 10 to 12 feet, with a diameter at the base of only 12 to 15 inches. A good tree for formal uses. Can be kept small by trimming. $1 to $2 per foot.

PINE (Pinus)

Austrian Pine. Very handsome, vigorous Pine of regular habit with stout spreading branches and long dark green leaves. 2 to 3 feet, $1 per foot.

Mugho Pine. This is fairly tolerant of shade and will grow on the north side or the shady side of a building quite successfully. It is without question the outstanding dwarf evergreen for all-around uses. $4 per foot.

Scotch Pine. This is one of the best Pines offered. Its needles are shorter than either white or Austrian Pine, in habit more compact, the foliage dark green. Where quick effect is wanted this variety will prove as satisfactory as any evergreen. $1 per foot.



HARDY FLOWERING SHRUBS

This list contains only the varieties of Shrubs that are hardy and suitable for this locality.

Almond (Flowering). Pink and white, double $1.00.

Althaea (Rose of Sharon). Red, pink and white.

Aralia Pentaphylla. A pretty shrub of medium size and rapid growth.

Barberry purpurea (Purple Leaved Barberry).

Barberry Thunbergii (Japan Barberry), $2.50 to $6.00 per dozen; $20.00 to $35.00 per 100, according to size.

Barberry Thunbergii Atropurpurea (New Red-leaf Japanese Barberry). In all respects similar to the green-leaf Barberry, with the exception of the foliage. Red berries stay on all winter. 75 cts. each.

Barberry Vulgaris (common Barberry).

Buddleia variabilis Veitchiana (Butterfly Bush, or Summer Lilac). Purple.

Calycanthus. Sweet scented shrub, maroon

Cornus, Alba (Red twigged Dogwood). White.

Cornus amoemum (Silky Dogwood), White.

Cornus Australis. White.

Deutzia Gracilis. White.

Deutzia Lemoineii. White.

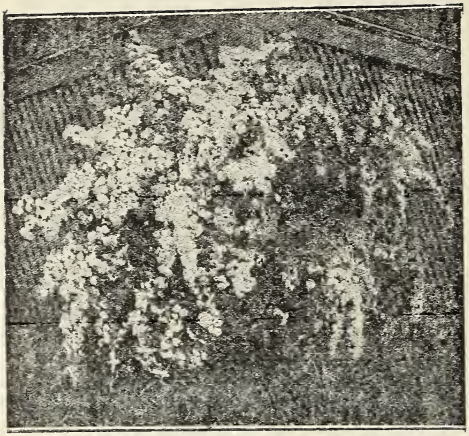
Euonymus Alatus. Corky winged branches. Leaves bright green with red in autumn. $2.00 each.

Euonymus Eurapaeus. Large erect shrub with yellow flowers; fruit rose-pink. $2.00 each.

Forsythia Fortunei (Golden Bell). Yellow.

Hydrangea Arborescens. White, 75 cts.

Hydrangea paniculata grandiflora. White turning pink. 75 cts. and $1.00 each.



SPIRAEA VAN HOUTTEI

Hydrangea paniculata grandiflora (Tree form). $1.00 to $2.00 each.

Japan Quince. Red.

Lonicera Bella Albida (Bush Honeysuckle). White.

Lonicera Bella Rosa. Pink.

Lonicera Morrowii. White.

Lonicera Tartarica. Pink.

Privet (Ligustrum.)

English Privet.

Ibolium Privet. Hardy and best for hedges in this locality. $3.00, $4.00 and $5.00 per dozen; $20.00, $25.00 and $35.00 per 100.

Privet Ibota.

Rhodotypus. White.

Ribes (Flowering Currant). Yellow.

Rhus coppalina (Shining Sumac).

Rhus glabra (Smooth Sumac).

Spiraea Arguta. White.

Spiraea Anthony Waterer. Pink.

Spiraea collosa alba. White form of Anthony Waterer.

Spiraea Opulifolia. White.

Spiraea Prunifolia (Old-fashioned Bridal Wreath). Wreaths of double white flowers in early Spring.

Spiraea. Yellow leafed.

Spiraea Van Houttei (Bridal Wreath) White. 50c to $2.00 each.

Symphoricarpus (Snowberry).

Symphoricarpus (Coralberry).

Syringa. Mock Orange.

Syringa coronarius. White, fragrant.

Syringa coronarius aurea. Large, deep yellow leaves. White flowers. Very hardy.

Syringa grandiflorus. Large white flowers.

Syringa Lemoineii erectus. White.

Syringa virginal. (New.) Large, double white flowers. 2 to 3 feet. $1.00 each.

Viburnum Dentatum (Arrow Wood). White.

Viburnum Lantana. Grows 10 to 15 feet high. Flowers white in flat-topped clusters usually. Berries bright red changing to black.

Viburnum Opulus (High Bush Cranberry). White.

Viburnum Opulus, Nanna. Dwarf.

Viburnum Opulus Sterlis (Common Snowball). Produces clusters of snow-white flowers in May.

Viburnum plicatum (Double Japanees Snowball). White.

Viburnum Rugosum. White.

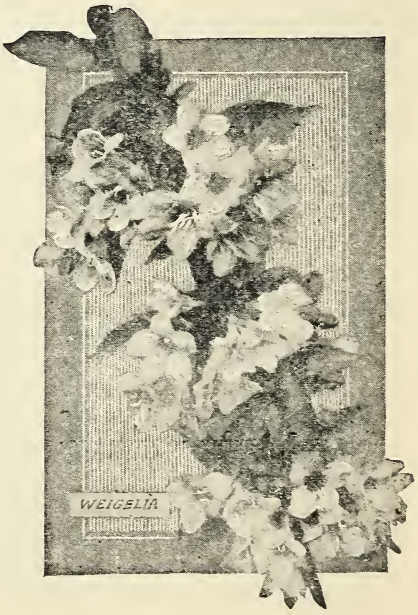
Viburnum tomentosum (Single Japanese Snowball.)

Weigela Eva Rathke. Red. Fine.

Weigela Rosea. Pink.

Price of above Shrubs, 50 cts. each except where noted; $5.00 per dozen.

We also have Large Shrubs, which will give an immediate effect. Price 75 cts. to $2.00 each.



ORNAMENTAL TREES

Catalpa Bungei. 2 year heads, $3.50 each.

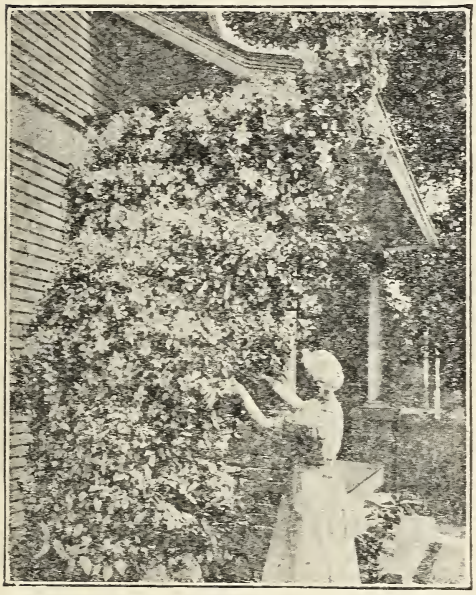
Crab Apple (Flowering). Bechtel's, double flowers, pink. $1.50 each.

Crab Apple (Flowering). Parkman's double flowers, deep rose. $1.50 each.

Cornus floridus (Flowering Dogwood). 3 to 4 feet. $5.00 each.

Elm (American). 8 to 10 feet. $3.00 each.

Elm (Camperdown). 2 year old heads. $3.00 each.



CLEMATIS PANICULATA

VINES

Ampelopsis Veitchii (Boston Ivy). 75c and $1.00

Dutchman Pipe. $1.00.

Euonymus Radicans. 50 cts.

Hall's Japan Honeysuckle. 50 cts.

Trumpet (Flowering) Vine. 35 cts.

Clematis Jackmani. Purple. $1.00.

Clematis Paniculata. Small white. 50c

Bitter Sweet. 50 cts.

Woodvine. 50 cts.

Wistaria. Chinese white. 75 cts.

Wistaria. Chinese purple. 75 cts.

Ginnala Maple. A large growing Shrub or small tree. Foliage colors bright red in Fall. $1.00 to $2.00 each.

Maple (Norway). From $3.00 to $20.00.

Maple (Silver leaved). 8 to 10 feet. $3.00 each.

Maple (Wier's Cut leaved). 8 to 10 feet. $5.00 each.

Ornamental Plane. 6 to 8 feet, $3.00 each.

Poplar, Lombardy. $1.50 to $3.00.

Thorn (Paul's Double Scarlet). $1.50 each.

LILACS

Common Purple Lilac. 50c and up.

Common White Lilac. 50c and up.

Improved FRENCH LILACS, both Single and Double Flowered, and in a great variety of colors. $1 to $5 each.

A VISIT to our Nursery will well repay you for your time.
A hearty welcome awaits you and your friends.

LILACS

HARDY HERBACEOUS FLOWERS

All the old fashioned Flowers for perennial gardens and rockwork.

Perennials should be found in every garden. They are far superior as cut flowers to annuals, once planted requiring very little attention. A succession can be chosen that will furnish a constant supply of cut-flowers from frost to frost. We are always glad to assist our customers in making selections for various purposes.

Achillea (Milfoil or Yarrow). Ptmarmica, fl. pl. pure white flowers in great profusion, throughout the entire summer, 18 to 24 inches.

Aegopodium podagraria variegata. Variegated foliage, thrives in any soil, good for edging.

Agrostemma coronaria (Mullien Pinks). Bright rosy red flowers. June and July. 2 feet.

Alyssum (Madwort). Saxatile compactum (Basket of Gold). Fine for Rockeries and Borders, growing 6 inches high and covered in May with yellow flowers.

Ameria (Sea Pink). Very attractive border or rock plant. Succeeds in any soil. Grass-like foliage in tufts. Crimson-red flowers nearly all summer, 8 inches.

Anchusa Italica (Dropmore variety). Rich blue, very showy. May and June, 3 to 4 ft. 25 cts. each, $2.50 per doz.

Anemone, Japonica (Wind Flower). Single white. October and November, 2 to 3 feet.

Anemone, Japonica (Wind Flower). Semi double pink.

Anemone, Japonica (Wind Flower). Semi double red.

Antennaria (Cat's Ear). Dwarf, creeping, with silvery foliage, white flowers in summer, 6 inches.

Anthemis (Chamomile). Kelwayii, daisy-like yellow flowers in June, 2 feet.

Aquilegia (Columbine). Long and short spurred varieties, June, 2 to 3 ft.

Arabis (Rock Cress), alpinis fl. pl. One of the first plants to flower in the spring, white.

Artemisia lactiflora. New, valuable. At its best in August and September, creamy-white flowers, fragrant, 3 to 4 ft.

Aubrietia (Rainbow Rock Cress). Pretty dwarf-growing plants suitable for the rock garden or borders. Flowers in sheets of dark purple blooms in spring and early summer. 6 inches.

Astible, Davidi. Large plumes of rose flowers. June and July, 2 feet.

Bellis perennis (English Daisy). Snowball, large double, pure white. $1.00 per doz.

Longfellow, large double, rosy pink. $1.00 per doz.

Boconnia (Plume Poppy). Cordata, July and August, 6 to 8 feet.

Boltonia (False Chamomile). Pink, 4 to 6 feet, July to Oct.

Campanula (Bell Flower). Carpatica, white, blooms from June to October, 1 ft. Blue, blooms from June to October, 1 ft.

Campanula glomerata. Blue, blooms from June to August, 18 inches.

Campanula medium (Canterbury Bells). Pink, blue, white, 2 feet.

Campanula persicifolia. Blue, June and July, 2 feet.

White, a pure white form of the above.

Campanula Persicifolia. Double blue.

Campanula gigantea Moerheimi. Double, pure white, Camellia-like flowers, 2 to 2½ inches in diameter, mid-May until late July, 2 feet.

Centaurea (Bachelor Buttons). Americana lilac flowers.

Centaurea montana (perennial Cornflower). Large violet-blue flowers, July to September, 2 feet.

Centaurea cyanus. Double blue Cornflower. 10 cts. each, $1.00 per doz.

Cerastium. (Snow in Summer.) Succeeds well in dry, sunny spots.

Chrysanthemum. Hardy fall flowering varieties in white, yellow, pink, red and bronze, Oct. and Nov., 2 to 3 ft.

Clematis (Shrubby). Davidiana, blue fragrant flowers, Aug. to Sept., 2 to 3 ft.

Coreopsis (California Sunbeams). Large flowers of yellow and brown. July until frost. New

Makes Things Grow

SACCO PLANT FOOD is the product of one of the oldest and best known manufacturers of Plant Foods and fertilizers. It has been scientifically proven that practically every soil is deficient in some or all of the vital plant feeding elements. SACCO is a perfect blend of these essential elements—clean, odorless and easy to use. It is far superior to any manures for supplying balanced feeding. Concentrated, a small amount goes a long way.

Easy to Achieve Healthy, Rugged Lawns, Shrubs, Flowers

A single application of SACCO Plant Food on your lawn will brighten and improve its growth in a week or ten days. Frequent light applications will keep it green and luxuriant throughout the summer and fall. A thickly matted turf is soon developed, crowding out and gradually eliminating dandelions, plantain and other weed pests. SACCO is so easy to use—simply scatter it by hand as you would sow grass seed. Apply to flower beds in the same manner and scatter about the base of shrubs. Specific instructions for the amounts needed for various plants is included in every package of SACCO Plant Food.

PERFORMANCE TELLS THE STORY—WHAT USERS SAY ABOUT SACCO

"It has been a pleasure for us to recommend SACCO to those who have made inquiry as to what fertilizer we considered best for general lawn use.

DEVILLO WOOD,
Superintendent of Parks, Niagara Falls, N. Y."

"Mr. Rae, Superintendent of Buildings and Grounds, states that he is very well pleased, indeed, with SACCO. We have been using SACCO for the past two years and the quantity purchased this year is sufficient evidence that we are pleased with it

T. C. DOOLITTLE, Registrar and Business Manager,
Colorado School of Mines, Golden, Colo."

"I consider SACCO one of the requisites for a successful lawn.

PROF. N. W. SHEARER,
Department Horticulture,
Ohio State University, Columbus, Ohio."

"We get from SACCO a healthier growth, a better root system, less anxiety about soil conditions, larger flowers, and an earlier bloom. We consider it an improvement of 100% as a Rose Food. It meets all the old requirements and then some at less cost and less labor.
"SACCO is shown exclusive favoritism here on the Post."

CALVIN W. PRICE,
Department Vocational Training,
United States Disciplinary Barracks, Fort Leavenworth, Kan."

"Our school lawn was in very bad shape. We have used other products without results. After two years use of SACCO we have developed a fine lawn with hardy shrubs and flowers.
"We recommend SACCO very highly.

J. C. ALLEN, Custodian,
McLean Junior High, Terre Haute, Ind."

70 Acres of Gladioli on Which 28,000 lbs. of SACCO Was Used

GENERAL DIRECTIONS *for* USING SACCO

A booklet of Detailed Instructions covering application for Lawns, Gardens, Shrubs, Flowers and Trees is to be found in each package of SACCO

Established Lawns: In early spring broadcast by hand or with fertilizer distributor, two to three pounds, per 100 sq ft. Apply just before a rain or water down afterwards.

Frequent light applications of half above amount during summer will keep the lawn green and thriving from spring to fall. Reseed the lawn spring and fall with 1 lb. grass seed to 400 or 500 sq. ft.

Preparing New Lawns: After preparing seed bed broadcast 3 to 4 lbs. per 100 sq. ft. and rake into top two inches of soil, smooth surface and firm with roller. Sow about 1 lb. of good grass seed to 300 sq. ft., rake lightly afterwards and roll again. Sprinkle frequently until fair growth is started, then SOAK the ground once a week to encourage a deep growth of the roots. SACCO will develop a healthy, well-matted turf in the shortest possible time.

For the Garden: After preparing seed bed broadcast 3 to 4 lbs. per 100 sq. ft. and work well into top 2 or 3 inches of soil. **Specific directions for various garden crops are to be found in direction folder in each package.**

For Flower Beds: After preparing seed bed work 3 to 4 small handfuls into top soil to each area 3x3 feet, or about 3 lbs. per 100 sq ft. When flowers start budding use half above amount, working into soil around plants. (See DETAILED INSTRUCTIONS FOLDER in each package covering annuals and perennials.)

For Shrubbery: The use of SACCO on your shrubbery will keep it full of healthy, green foliage and promote better blooms. (Directions will be found in circular contained in each package.)

For Potted Plants: Work into soil around plant, one level teaspoonful for each quart of soil, water well after applying. Or mix two level teaspoonfuls in quart of water, and use solution for watering. (Refer to INSTRUCTIONS FOLDER in each package.)

For Shade and Fruit Trees: Too frequently this valuable part of the home grounds is neglected. An annual feed of SACCO will keep them in fine growing condition. (Refer to DETAILED INSTRUCTIONS FOLDER in each package.)

For Greenhouse Use: For the florist and nurseryman SACCO has proved to be an investment and not an expense. Better growth and less time to reach the market are two of its important features. (Specific instructions for greenhouse use are available upon request.)

The Essential Factor

In Home Beautification

There's Where I Live . . . . That's My Home!

YOUR HOME is like a splendid painting—it must be properly framed—given the right kind of setting—or its appearance and even its value will suffer.

Lawn, trees, shrubs and flowers make up the setting. The beauty of the green and colorful growing things, allowed their full expression as nature intended, will enhance the beauty of even the most modest home. Then too, such surroundings add to the value of your property by definitely improving its appearance. You will be glad to point to such a home with satisfying pride and happiness and say, "There's Where I Live . . . . That's My Home!"

However, every soil is not properly suited to promote full and unstunted growth to nature's beautifiers. Certain life-giving elements are lacking. Now science has provided these elements in a form easy to apply, so that every lover of nature can produce for themselves a haven of rest and happiness about their home.

SACCO is not merely a fertilizer, it is a PLANT FOOD. Fed to plants in any soil, it promotes full, healthy growth, brings out the greenness of the foliage and brightens the color of every flower. Lawns, flowers, shrubs take on new life after a few feedings, developing themselves to a point of perfection and beauty which is hard to realize—beauty that inspires even the amateur gardener to higher ideals.

Such beauty in growing things can be attained with SACCO Plant Food. Its uses are definite and its results positive—you know what it will do before you use it. Read the testimonials in this folder.

You Can Bring Out the Natural Beauties of Your Home Economically, Effectively, Conveniently with SACCO

DOUGLAS SPRUCE

IN Purchasing Nursery Stock the most important point is to have it delivered to you as soon as possible after being taken from the ground. Our plants are dug and delivered the same day; this assuring good live stock to begin with and if they are kept damp before planting and watered well after planting they will make a fine showing the first season.

OUR GUARANTEE

We Guarantee Our Plants to be in Good Condition when delivered. If given the proper care and if any of them die the first season we will gladly replace them Free of Charge.

CLAIMS For Replacements must be made in writing between July 1st and October 1st, of the season purchased.

You are cordially invited to come to the Nursery and select your own plants. There are always capable men there to wait on you.
